

EACH ONE
EDUCATE ONE

EDUCATION FOR TRANSFORMATION

ABOUT EACH ONE EDUCATE ONE

Education is a basic human right. Yet children living in poverty, who need education the most, are the least likely to attend school.

Each One Educate One is a social impact movement that champions the spread of values-based, holistic education. The program serves as a platform for individuals, institutions and communities to participate in this unique 'pay it forward' model of education.

Through the Foundation, we support the tuition costs of children studying in our network of schools.

24 SCHOOLS
16 DISTRICTS
3730 STUDENTS

WHAT WE DO

We primarily work with schools that share our vision for education as a tool for collective empowerment as well as individual transformation, and therefore offer education to all their students free of any cost.

All e1e1 partner schools, therefore, meet these four criteria:

FREE EDUCATION FOR ALL

Good and quality education is a basic human right and should be offered to all that seek it, without any discrimination whatsoever

FOLLOW HOLISTIC SYSTEM OF EDUCATION

The curriculum must particularly promote love and respect for all faiths by focusing on the universal human values common to all cultures.

CATER TO RURAL INDIA

The schools must cater primarily to the rural poor and give priority admissions to rural and underprivileged children, helping reduce the opportunity gap between rural and city children.

SOCIETAL PARTICIPATION

The school serves as a platform for society to participate in promoting the spread of values-based, holistic education, through the program's unique 'pay it forward' model

OUR PARTNER SCHOOLS

We presently have 24 schools spread across 16 districts in rural Karnataka and Telangana in our network.
